Adding photos trainer

Create a group

The application allows swimmers to split into groups and assign them a specific coach, see Figure No. 60.

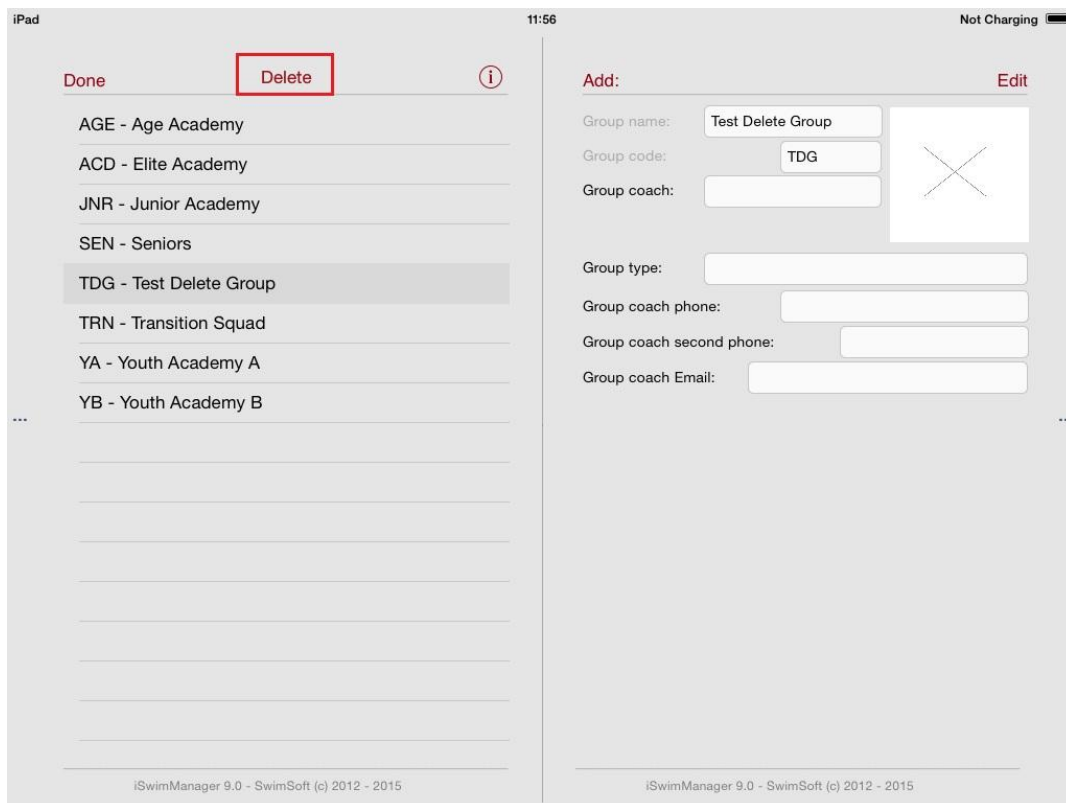

Writing group should be the standard way through the [Add](#) button. They are mandatory for data that must be completed. These are the [Group Name](#), [Group code](#). See Figure No. 61

After entering data press [Save](#) button and enter the new group. Correction of data shall be made accordingly by pressing the button [Edit](#) and after the repair, press the button [Save](#).

Groups are used not only to divide into groups of swimmers but also the distribution of training plans and training.

Deleting groups is possible only if it has no data entered in the Modules [Swimmer](#), [Training Plan](#), [Training and Manager of swim meets](#). Then the [Delete](#) button appears. See Figure No. 62

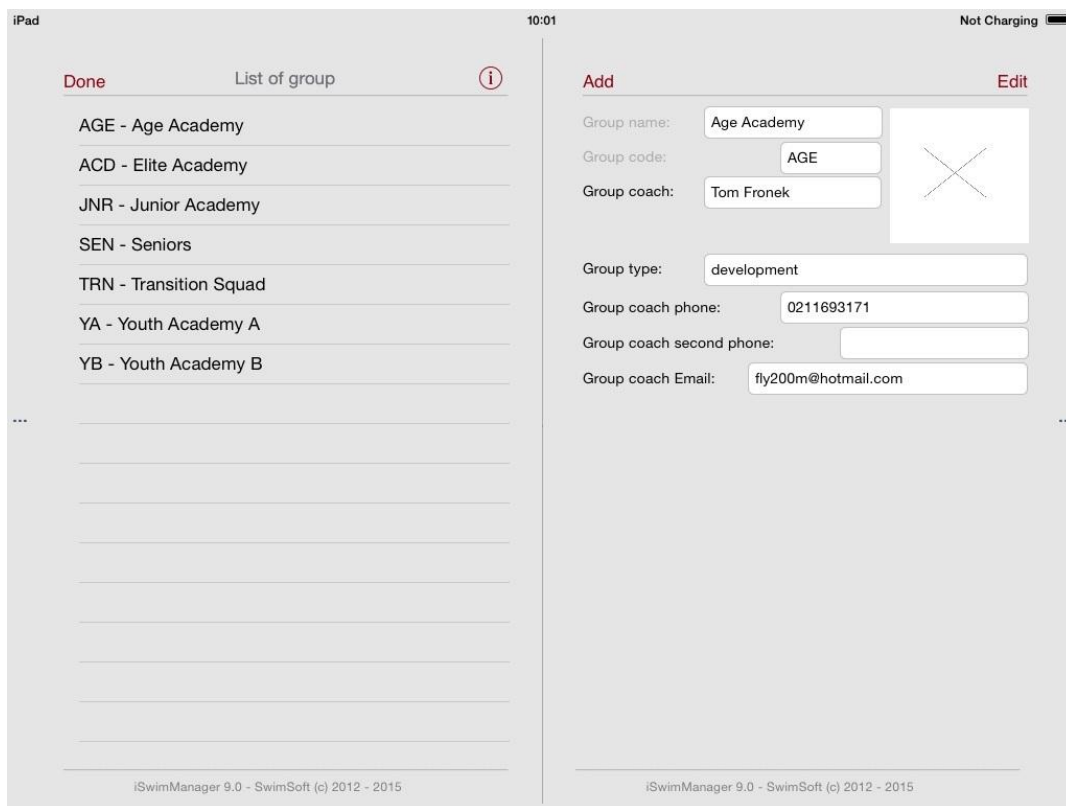

Important:

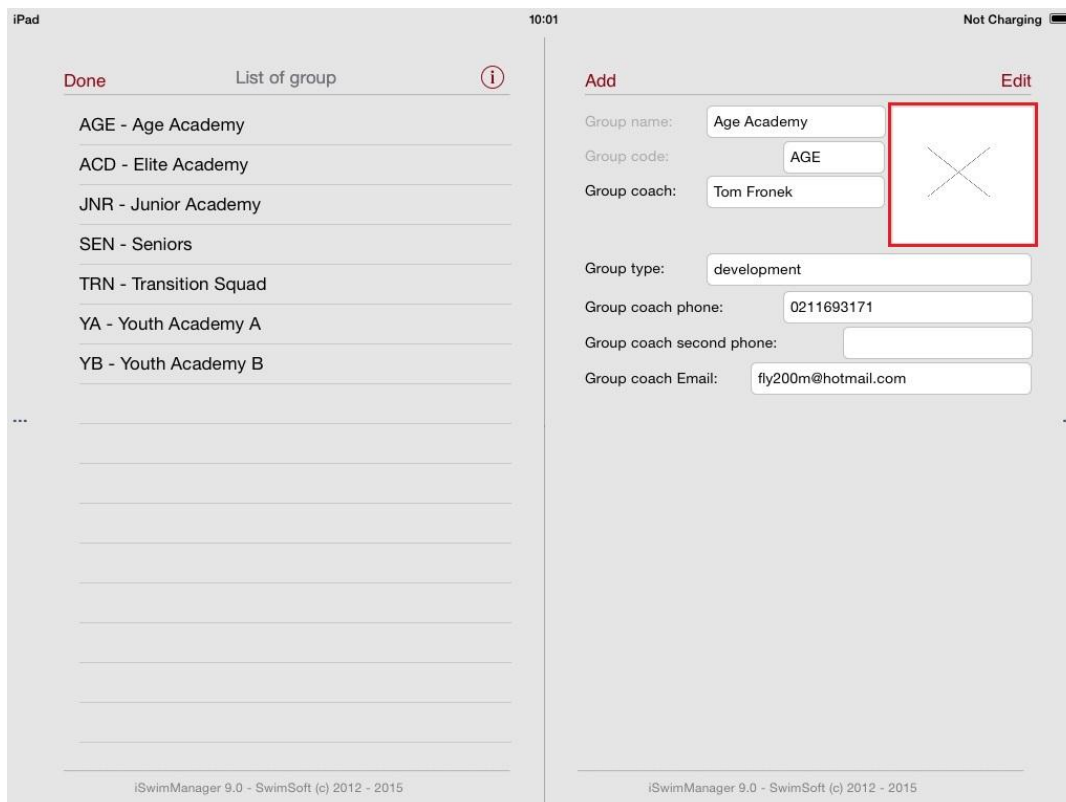

.Each group must have a different Group Code. Group Code can have max 5 characters.

Adding photos of trainer

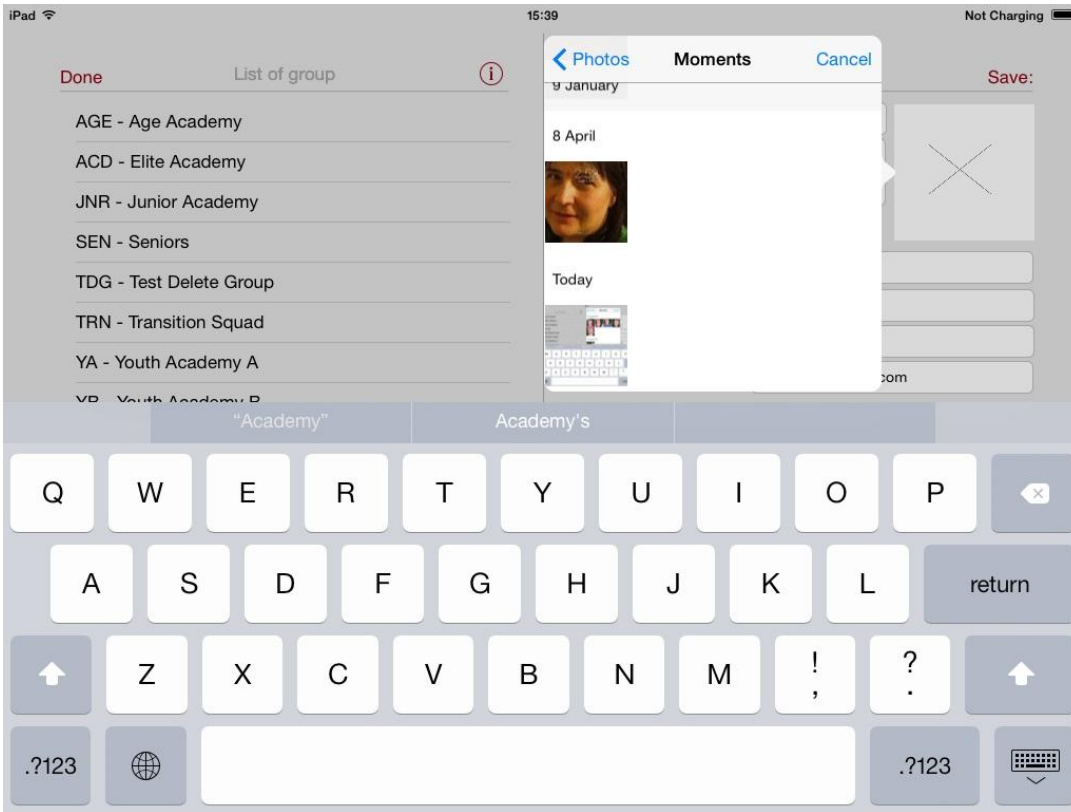

Select the group. See Figure No. 63

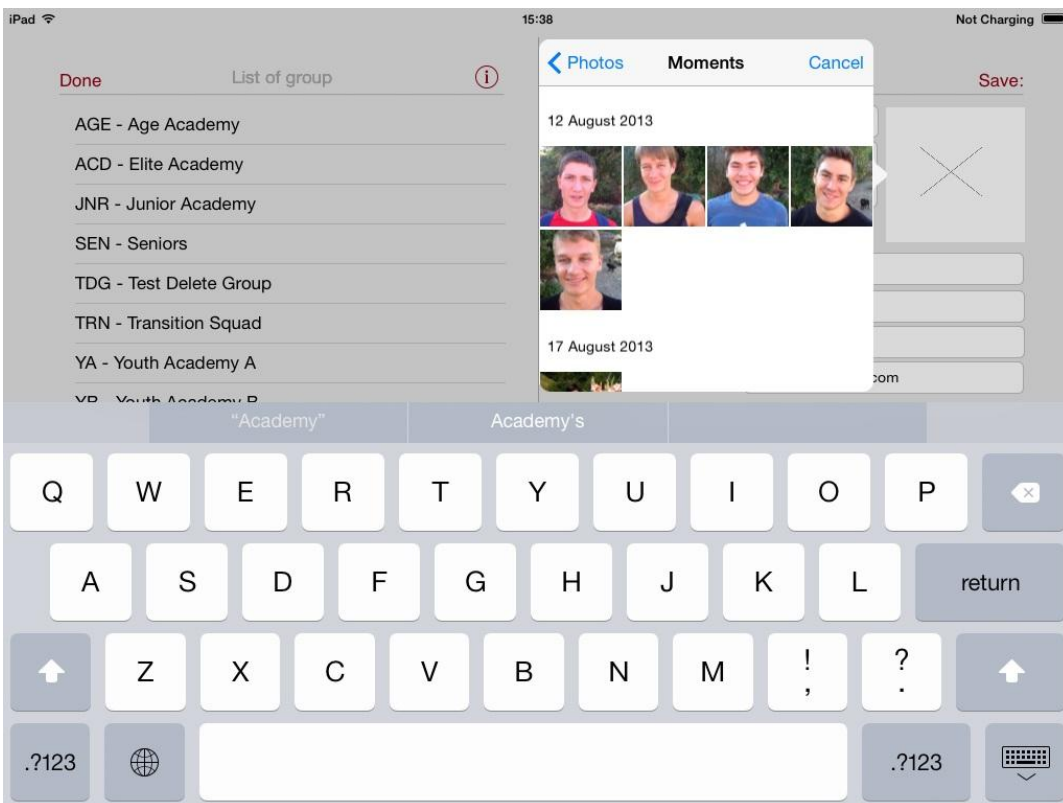

Tap into this red square. See Figure No. 64

A selection of photos displays. See Figure No. 64

Locate the photo you want to assign to the group. See Figure No. 65

Tap on the selected photo. Photo appears on the screen and it is automatically saved in the App. See Figure No. 66
